Subject: GEF-OFP Endorsement for the Utilization of RAF Resources (USD 1.4 million) to SGP Afghanistan

Dear Ms. Barbut,

In my capacity as GEF Operational Focal Point for Afghanistan, I would like to express our appreciation for the approval of the new SGP Programme for Afghanistan. The Programme is certainly in line with the government's national priorities and the commitments made by Afghanistan, particularly in promoting community based approach as one of the tenets of sustainable development.

In this regard, the country has decided to allocate the sum of US\$ 1.4 million of funds from the biodiversity focal area under the GEF Resource Allocation Framework (RAF) made available to Afghanistan from the GEF-4 (2006-2010) cycle to cover the immediate implementation of the SGP in Afghanistan and its associated management services (10% of the RAF allocation to SGP). Given the funding source, the thrust of the National Strategy for the SGP Programme will needless to say, ensure focus on achieving key biodiversity and environmental results in target areas.

I therefore hereby endorse the utilization of the amount of USD 1.4 from biodiversity focal area for this purpose.

Asunto: **Endoso para la Utilización de los recursos MAR -PPD Argentina (periodo 2008-2010)**

Estimada Ms. Barbut:

En mi calidad de Punto Focal Operacional del FMAM para Argentina, confirmo que el Programa de Pequeñas Donaciones (PPD- Argentina) arriba mencionado esta en un todo de acuerdo con las prioridades del gobierno nacional y con el compromiso hecho por Argentina conforme a las convenciones globales de Medio Ambiente y que han sido discutidas por los grupos relevantes, incluyendo los puntos focales de las convenciones ambientales globales, siguiendo la política del GEF de participación pública.

Por consiguiente, es un honor confirmar el interés del Gobierno de la República Argentina en continuar apoyando al Programa de Pequeñas Donaciones, dado que en el transcurso de dos años de implementación ha desarrollado iniciativas ejecutadas por organizaciones locales de la sociedad civil orientadas a contribuir con la resolución de problemas ambientales y a mejorar la calidad de vida de los habitantes.

En consecuencia, me es grato comunicarle que el país ha decidido confirmar la asignación remitida en el mes de Octubre con un monto de US\$ 1.100.000 de fondos (US\$ 550.000 para cada Área Focal de Conservación de la Biodiversidad y Cambio Climático) al Programa de Pequeñas Donaciones de Argentina, bajo el Marco de Asignación de Recursos (MAR) del FMAM puestos a disposición de Argentina para cubrir la segunda mitad del FMAM-4 (2008-2010), incluyendo sus gastos de administración (el 10 % de la asignación MAR- PPD).

Tema: Endoso del Programa de Pequeñas Donaciones de Bolivia para utilización de fondos del RAF

De mi mayor consideración:

En mi capacidad de Punto Focal Operacional del GEF para Bolivia, confirmo que la propuesta arriba mencionada del Programa de Pequeñas Donaciones Bolivia para la utilización de fondos del RAF: a) está de acuerdo con las prioridades nacionales del gobierno y de los compromisos realizados por Bolivia bajo las convenciones ambientales globales relevantes y b) ha sido discutida con los actores relevantes, incluyendo los puntos focales de las convenciones ambientales globales, de acuerdo con las políticas del GEF sobre participación pública. Por consiguiente, es un honor endosar la propuesta de Estrategia del PPD Bolivia arriba mencionado preparada con el apoyo de los puntos focales de las convenciones ambientales globales y el PNUD.

Tengo conocimiento que el financiamiento total del GEF que ha sido solicitado para esta Estrategia es de USD 600,000.00 que incluye USD 60,000.00 (10% del total de la asignación al PPD Bolivia) por los servicios de administración e implementación de esta estrategia.

Doy el consentimiento de la utilización de USD 600,000.00 de la cuota disponible para Bolivia en el GEF 4 bajo el marco de los recursos de asignación del RAF del GEF, para cubrir la implementación y los servicios de administración de la Estrategia del PPD Bolivia para la utilización de fondos del RAF.

Subject: *Information on activities on utilizing funds currently allocated for Bulgaria*

Dear Mr. Ehlers,

Thank you for your letter dated 21 November 2008 concerning the information about the resources available for Climate Change-related projects and the reallocation of the unused funding.

First of all I would like to inform you that Bulgaria allocates 1.7 million USD to GEF Small Grants Programme from its RAF on Climate Change for the period of OP4.

Please find more information below on pipeline projects in the field of climate change, which are being prepared at the moment:

1. A National Country Programme under the Global Solar Water Heating Market Transformation and Strengthening Initiative (PIMS 3611)

The goal of the global project is to accelerate the global commercialization and the sustainable market transformation of solar water heating, thereby reducing the current use of electricity and fossil fuels for hot water preparation. It will build on the encouraging market development rates already achieved in some GEF program countries and will seek to further expand the market in other GEF program countries, where the potential and necessary prerequisites for market uptake seem to exist.

In general the National Country Programme shall include the following components:

- Enabling policies;
- Raising Public awareness and development of proper marketing strategies;
- Development of adequate financing schemes;
- Supply side strengthening and quality control through the adoption of applicable standards and certification schemes;

Budget for BG: USD 800-900,000 (medium sized project)

Project duration: 3 years

2. Preparation of a proposal to GEF entitled, “Policy Instruments for Stimulating the Market of Electricity Generation from Renewable Energy Sources”

The project aims at facilitating the investments in production of electricity from RES over the objectives set by EU.

The GEF funding, proposed for this project, is USD 2 M.

The resources provided by GEF will be managed by UNDP as an executive agency. The leading authority is the Ministry of Economy and Energy.

Should you need more information, please do not hesitate to contact me.

Subject: Endorsement of RAF Fund for the implementation of Small Grants Programme in China

Dear Ms. Barbut,

According to the decision by GEF Small Grants Programme (SGP) Steering Committee meeting in November 2006, and the Project Document for SGP Operational Phase IV, China will be one of the new countries to join GEF SGP. The Government of the People's Republic of China welcomes this decision, and confirms its strong commitment to launch this programme immediately, following SGP Operational Guidelines and Standard Operating Procedures.

While the Government of China continues to work with GEF implementing and executing agencies to develop full-sized and medium-sized projects, the Government has decided to allocate the sum of \$1,000,000 (\$500,000 from biodiversity focal area, and \$500,000 from climate change focal area) to launch the Small Grants Programme in our country during the rest of GEF-4 (2008-June 2010). According to SGP fund access criteria, \$150,000 of SGP core fund will be made available during the first year of SGP in China.

A country programme strategy, including the strategy to utilize the RAF fund, will be developed by a multi-sectoral National Steering Committee, in accordance with the Government's national priorities and the commitments made by the Government of China under the relevant global environmental conventions. I hereby endorse the utilization of the amount of \$1,000,000 of RAF fund use during the second half of GEF-4 (2008-2010). I understand from GEF policy that this includes 10% implementation and execution fees. The Country Programme operating budget will be provided by SGP separately.

I take this opportunity to invite SGP Central Programme Management Team to conduct a start-up mission in China. I assure you the strong support of the Government to ensure the successful implementation of SGP in China.

Dear Ms. Barbut:

In my capacity as GEF Operational Focal Point for Dominican Republic, I confirm that the above-mentioned RAF Utilization Strategy is in accordance with the government's national priorities and the commitment made by Dominican Republic under the relevant global environmental conventions and has been discussed with relevant stakeholders, including the CBD focal points, in accordance with GEF's policy on public involvement.

Accordingly, I am pleased to endorse the SGP RAF Strategy prepared with the support of GEF SGP National Steering Committee member, the GEF Political Focal Point and the GEF SGP National Coordinator - Dominican Republic.

The country has decided to allocate the sum of US\$600,000 of funds from biodiversity conservation under the GEF Resource Allocation Framework (RAF) made available to Dominican in the last two years of GEF-4 (2008-2010) to cover the implementation of the RAF Strategy of SGP Dominican Republic and its associated management services (10% of the RAF allocation to SGP).

For the last half GEF-4, I understand that the GEF financing from the country RAF allocation requested under this Strategy to cover the SGP period from July 2008 to June 2010 is US\$ 600,000, and I hereby endorse the utilization of the amount of biodiversity conservation for this purpose.

Asunto: Aval de la Estrategia GEF PPD para la utilización de los recursos RAF.

Estimada Sra. Barbut:

Como es de su conocimiento, la Estrategia Nacional para Programas y Proyectos del Fondo para el Medio Ambiente Mundial (Octubre, 2006), está diseñada de acuerdo a las prioridades nacionales del gobierno y a los acuerdos firmados por el Ecuador bajo las convenciones medioambientales globales relevantes. Esta estrategia ha sido discutida con las partes interesadas, incluyendo los puntos focales del Convenio sobre Biodiversidad, de acuerdo con la política del FMAM sobre participación pública.

En el caso de Ecuador, esta Estrategia consideró que el 16.5% de los recursos debía ejecutarse mediante el mecanismo PPD, sin embargo bajo los nuevos lineamientos del FMAM, se asignaron US\$ 2'400.000 (US\$ 800,000 por año) que incluye un 10% de la cuota anual del RAF para el PPD (US\$ 80,000 anual) para gastos administrativos asociados con la implementación de esta estrategia.

Con estos antecedentes me complace informarle que en mi calidad de Punto Focal del FMAM en Ecuador, otorgo el aval de la Estrategia RAF PPD, preparada bajo los lineamientos de la Estrategia Nacional para Programas y Proyectos del Fondo para el Medio Ambiente Mundial, cuyo diseño incluyó un amplio proceso participativo en el que colaboraron miembros del Comité Directivo Nacional y la Coordinadora Nacional del PPD en Ecuador.

En consecuencia, por este medio le comunico que esta cartera de Estado brinda su conformidad para que estos recursos (US\$ 800,000) se destinen a la implementación de la Estrategia RAF PPD y sus costos de manejo asociados.

Atentamente,

Anita Alben

Subject: Endorsement of the GEF SGP Strategy for the Utilization of RAF Resources

Dear Ms. Barbut:

In my capacity as GEF Operational Focal Point for Egypt, I confirm that the above-mentioned RAF Utilization Strategy is in accordance with the government's national priorities and the commitment made by Egypt under the relevant global environmental conventions and has been discussed with relevant stakeholders, including the **CBD and UNFCCC** focal points, in accordance with GEF's policy on public involvement.

Accordingly, I am pleased to endorse the SGP RAF Strategy prepared with the support of head of the national steering committee, members from the steering committee, UNDP, EEAA and Dr. Emad Adly, GEF SGP National Coordinator – Egypt

The country has decided to allocate **the sum of US\$ 200,000 of funds from the biodiversity and the sum of 1,000,000 from the climate change** under the GEF Resource Allocation Framework (RAF) made available to Egypt in the entire duration of GEF-4 (2007-2010) to cover the implementation of the RAF Strategy of SGP Egypt and its associated management services (10% of the RAF allocation to SGP).

For the first half GEF-4, I understand that the GEF financing from the country RAF allocation requested under this Strategy to cover the SGP period from July 2007 to June 2008. I hereby endorse the amount of US\$ 400,000, to be distributed 100,000 from biodiversity and 300,000 from the climate change for the first half.

Objet : *Haïti- Liste de Projets possibles dans les domaines thématiques liés à la Diversité Biologique et aux Changements Climatiques au titre du Cadre d'Allocation de Ressources du Fonds pour l'Environnement Mondial (RAF/FEM)*

Madame la Directrice Exécutive et Présidente du GEF,

J'ai l'honneur de me référer au nouveau mécanisme mis en place par le Fonds pour l'Environnement (FEM), le Cadre d'Allocation des Ressources (RAF), pour soumettre à la Direction Exécutive du FEM la liste en annexe des premières propositions qui constitueront le pipeline de projets de la République d'Haïti au titre du RAF dans les domaines thématiques cités en objet.

Le niveau de ressources à affecter à chaque projet dans les limites de disponibilité attribuées à Haïti ainsi que les concepts qui sont à divers stades de préparation avec le PNUD qui fournit, dans ses domaines de compétence, un accompagnement au Gouvernement haïtien en faveur de la protection et de la valorisation de l'environnement, seront précisés et communiqués ultérieurement à la Direction du FEM.

Avec l'espoir de pouvoir toujours compter sur la Direction du FEM pour la mise en œuvre du RAF, je vous prie d'agréer, Madame la Directrice Exécutive et Présidente., l'expression de mes cordiales salutations.

Objet:: Haïti- Cadre d'Allocation des Ressources (RAF) : Contribution au SGP

Madame la Directrice Exécutive et Présidente,

Faisant suite à mon courrier du 18 Septembre 2006 référencé MdE/DG/GFE – 0900, J'ai l'avantage de vous informer, qu'en ma capacité de Point Focal Opérationnel du FEM, le Ministère de l'Environnement de la République de Haïti a décidé de mettre à la disposition du Programme SGP/Haïti un montant de \$ US 1,100,000 (Un Million et Cent Mille Dollars Etats Unis) jusqu'à l'échéancier 2010 au titre du Cadre d'Allocation des Ressources.

Ce montant se répartit comme suit :

- \$ US 600,000 pour le domaine de la Diversité Biologique ;
- \$ US 500,000 pour le domaine des Changements Climatiques.

Cette importante contribution, compte tenu du niveau des ressources du RAF alloué à Haïti, traduit la volonté du Gouvernement haïtien d'appuyer les projets de petite envergure des Organisations Communautaires de Base, des Associations paysannes, des ONGs, et d'autres groupes organisés de la société civile haïtienne qui adressent les questions de gestion et de conservation pour le développement durable des communautés.

Assuré de la diligence de vos services à mettre à la disposition du SGP/Haïti les fonds indiqués, Je vous prie d'agréer, **Madame la Directrice et Présidente du FEM**, l'expression de mes considérations les meilleures.

Subject: National Criteria for GEF project

Dear Ms. Barbut,

Referring to your letter of October 5, 2006 concerning communications from countries on programming under RAF, I would like to respectfully inform you that in Indonesia we have organized many consultation meetings involving representatives of government agencies (18 Ministries), NGOs, and GEF Implementing Agencies since November 2005. The outcome of such extensive process was a set of general and specific criteria that we are using to endorse project proposals for approval of funding by the GEF.

The general criteria are as follows:

- 1) The source of co-financing is preferably not a new loan;
- 2) Reflects or directly implements national priorities;
- 3) Part of the obligation of parties under UN conventions;
- 4) Promotes sustainability;
- 5) Has positive impact to national and global environmental;
- 6) Preferably implemented by, or involving, multi-parties;
- 7) Contribute to environmental data collection and management

The specific criteria for biological diversity proposals are taken from our Indonesian Biodiversity Strategy and Action Plan. They are:

- 1) Support to existing protected areas (doubling, betterment, enabling, strengthening monitoring and evaluation); 25% of RAF
- 2) Species extinction avoidance: timber certification and tracking, over fishing, patrolling unit and surveillance; 20% of RAF
- 3) Capacity building, education, and public awareness; 15% of RAF
- 4) Marine and coastal conservation; 15% of RAF
- 5) Agro biodiversity and sustainable use; 15% of RAF
- 6) Other biodiversity project; 10% of RAF

The specific criteria for climate change proposals are:

- 1) Renewable energy (geothermal, wind and solar energy); 35% of RAF
- 2) Capacity building, education, and public awareness; 20% of RAF
- 3) Energy efficiency; 20% of RAF
- 4) Non energy but climate change related project; 15% of RAF
- 5) Alternative fuel (bio-fuel, biogas and biomass); 10% of RAF

Please be advised that the submitted proposals were reviewed by the stakeholders prior to endorsement by the GEF-OFP. A special session was also organized among GEF Implementing Agencies to provide the overall picture of the submitted concepts and proposals in the context of Indonesian RAF.

At a special meeting attended by GEF Implementing Agencies, government agencies, NGOs and academia, to discuss the issues that you raised in your letter of October 5, 2006, the Indonesian GEF stakeholders have agreed to inform you about our national criteria and the endorsement process for each of the proposals that we have been implementing for almost a year.

We are aware that the GEF Secretariat is dealing with thousand proposals from more than 150 countries. However, after all the efforts to synchronize the GEF projects with our national priorities, we sincerely hope that you would support our endorsed proposals for the review of the GEF Council in their December 2006 meeting.

In concert with the list of endorsed proposals that we have submitted to you on September 15, 2006, we would like to register that Indonesia is planning to allocate a total of USD4.5 millions for the GEF Small Grants Project (SGP) from our RAF. We plan to use USD3 millions under biodiversity and USD1.5 millions under climate change from the Indonesian GEF-4 allocation. A separate letter will be sent to you to formally request the use of RAF allocation for the GEF Small Grants Project, after the Indonesian GEF stakeholders meeting which will be organized early next week.

I thank you for your kind attention.

Yours sincerely,

SGP Jamaica Strategy for Utilization of RAF Funds

In my capacity as GEF Operational Focal Point for Jamaica I confirm that the above-mentioned RAF Utilization Strategy is in accordance with the government's national priorities and the commitment made by Jamaica under the relevant global environmental conventions and has been discussed with the relevant stakeholders, including the focal points, in accordance with GEF's policy on public involvement.

Accordingly, I am pleased to endorse the SGP RAF Strategy prepared with the support of the members of the National Steering Committee and Mr. Dale Rankine, GEF SGP National Coordinator – Jamaica.

I understand that the total GEF financing requested under this Strategy is US\$510,000, which includes US\$51,000 (10% of the total RAF allocation to SGP) in fees for management services associated with implementation of this Strategy. I consent to the allocation of the US\$510,000 of RAF resources made available to Jamaica in GEF-4 under the GEF Resource Allocation Framework to cover the implementation of the GEF SGP RAF Strategy and its associated management services.

*Ресурстарды бөлу шеңберіндегі қаражатты
пайдалану ЖЭҚ ШГБ ұлттық
стратегиясы туралы*

Құрметті Моник Барбю ханым,

Қазақстан Республикасы мен Жаһандық экологиялық қор арасындағы 12-жылдық жемісті ынтымақтастық үшін алғыс білдіреміз.

Қазақстан Республикасы Қоршаған ортаны қорғау министрлігі Ресурстарды бөлу шеңберіндегі (бұдан әрі – РБШ) қаражатты пайдалану жөніндегі Жаһандық экологиялық қордың Шағын грант бағдарламасының (ЖЭҚ ШГБ) ұлттық стратегиясын қарастырғандығын хабарлайды.

Бұл Стратегия ұлттық сарапшылармен белсенді түрде дамытылған және ЖЭҚ ШГБ жүргізіп жатқан жұмыс ресурстарды бөлу шеңберіндегі ұлттық саясаттың бөлімі болып табылады.

Қазақстан Республикасы Жаһандық экологиялық қордың 4-ші операциялық фаза кезеңінде Қазақстандағы ЖЭҚ ШГБ-ның қызметін қолдау үшін РБШ қаражатынан 1,2 миллион АҚШ долларын немесе 4-ші операциялық фазаның бірінші екіжылдығына 0,6 миллион АҚШ долларын бөлуге дайын екендігін хабарлаймыз. Бұл сома биоалуандықты сақтау және климаттың өзгеруі жөніндегі тақырыптар бойынша арасында бірдей пропорциядамен бөлінеді.

Құрметпен,

**Қазақстан Республикасының
Қоршаған ортаны
қорғау министрінің м.а.**

Subject: Endorsement of the GEF SGP Kazakhstan Strategy for the Utilization of RAF Resources

Dear Ms. Monique Barbut

Hereby we extend our appreciation of fruitful cooperation during 12 years between Kazakhstan and Global Environment Facility.

Please be informed that the Ministry of Environmental Protection has reviewed the SGP GEF RAF Country Strategy.

The Strategy has been developed with active involvement of the national experts and it is in accordance with the government's national priorities and the commitment made by Kazakhstan under the relevant global environmental conventions and has been discussed with relevant stakeholders.

Please be confirmed that for the period of GEF phase 4, Kazakhstan is willing to allocate 1.2 million USD from RAF in order to support SGP GEF activities and its associated management services in Kazakhstan i.e. 0.6 million USD for the first two years of OP 4. Said amount will be equally divided between the focal areas represented by biodiversity conservation and climate change.

Respectfully,

Alzhan Braliyev,
Vice Minister of Environmental Protection
GEF Operational Focal Point in Kazakhstan
